Breathe Easy: Silica Safety in Construction

Learn how to identify and manage silica dust risks on-site with practical strategies that protect your health, meet legal requirements, and keep your team safe.

The Qualification: A Statement of Attainment for NAT10830001 Prevent crystalline silica exposure will be issued upon successful completion of the course.

Pre-requisites: There are no formal pre-requisites for this course.

CSTC requirement: A general understanding of WHS practices in the workplace is recommended

Course Delivery: The course is delivered and assessed face-to-face over 5 hours.

Facilitators: In partnership with Creative Safety Initiative (CSI) RTO # 88216, we use fully qualified Trainers and Assessors with current construction industry experience.

Course Content: Participants will gain the knowledge and skills to identify and manage silica risks in the workplace. This course aligns with the Work Health and Safety (General) Regulations 2022, including Regulation 529CD for crystalline silica training, and supports roles in construction and fabrication where exposure risks exist.

Pathway Information: This is a standalone unit of competency and is not linked to any formal qualification pathway.

Assessment: Open book written questions and practical assessments undertaken in class

The Venue: Training is conducted at the CSTC Training Rooms at Trades Hall Centre
82 Beaufort Street, Perth W.A. 6000.

How to Enrol: Contact CSTC on (08) 9358 6501 or email training@cstc.com.au. Further course and participant information can be found on our website at www.cstc.com.au

Fees: **$400,** Training subsidies may be available, please contact us to discuss eligibility. Payment by direct deposit or credit card is required prior to attendance.
